

THE SIXTEENTH

V. G. Kulkarni Memorial Lecture

The sixteenth V. G. Kulkarni Memorial Lecture will be delivered by eminent physicist Prof. Rohini Godbole. She did her B.Sc. from Pune University (1972), M.Sc. from Indian Institute of Technology Bombay (1974) and Ph.D. from State Univ. of New York at Stony Brook, USA (1979). She has worked extensively on different aspects of particle physics phenomenology over the past three decades, authoring more than 280 research publications in refereed journals & archived e-prints. She serves as a member on various National & International Committees, and is an elected fellow of all the three science academies of India (INSA, IASc and NASI). Additionally, she has worked towards pioneering a variety of programmes at numerous fora to raise awareness on the subject of Women in Science.

**Homi Bhabha Centre for Science Education
Tata Institute of Fundamental Research**
cordially invites you to the
Sixteenth V. G. Kulkarni Memorial Lecture by

Prof. Rohini Godbole

*Professor, Centre for High Energy Physics,
Indian Institute of Science, Bangalore*

Women in Physics & Mathematics

The lecture will celebrate stories of some of the outstanding women in physics and mathematics and try to abstract the issues that these women in science handled. An attempt will be made to juxtapose this with the story of women in science in India today. Lastly, efforts that are being taken/needed to change the situation will be discussed in brief.

Day and Date: Thursday, September 21, 2017
Time: 4:00 pm to 5:30 pm

**Venue: V. G. Kulkarni Auditorium,
Homi Bhabha Centre for Science Education**

V. N. Purav Marg, Near Anushaktinagar Bus Depot,
Mankhurd, Mumbai – 400 088
Phone: (022)-25580036
